

# SIRIKAYA

## Traditional Thai Massage

Dear Customers

As Auckland is now set to COVID status RED, we are only allowed to perform massage on vaccinated people who can present their vaccine pass. We are sorry but at this moment we cannot provide massage services to people who do not have a valid vaccine pass. If you have a medical exemption from being vaccinated then you can still obtain a vaccine pass based upon this exemption.

As the owners of Sirikaya, we are compelled to abide by the current law and we cannot make exceptions. I know that this is frustrating but there is nothing we or our staff can do about this. We ask for your patience with this, we are all trying to find ways to work within the restrictions that have been placed on us by the government. There is no reason for our customers to remonstrate with our staff about this. Our staff can do nothing to change the government mandated trade restrictions that have been placed on our business or the instructions regarding this that have been communicated from our management team.

If you wish to contact the owners of Sirikaya about this or anything else that you may be unhappy with, please email us at [admin@sirikaya.co.nz](mailto:admin@sirikaya.co.nz). We will do our best to answer your questions about the limitations of our trading environment.

Thank for your continued support and understanding.

Sirikaya
